What is 'Ālim Class

'Ālim class is a structured, compact course of six years in which students progress to learn the Qur'an and the Ahadīth of the Prophet Muhammad, peace and salutations be upon him.

Why is it important?

Islam was revealed in Arabic. The laws and rulings of Islam were revealed in the Arabic language. To attain and understand them is not possible unless one studies Arabic through a structured course, and then progresses onto the Qur'an and Ahadith. He will fully grasp the knowledge and become a means of protecting the knowledge of the Qur'an and Ahadith. It is clear how important and essential this is for the preservation of Islamic knowledge.

The Prophet Muhammad, peace and salutations be upon him, said:

"Indeed, from the signs of the Hour (Day of Judgement) is that knowledge will be lifted up, and ignorance will become widespread."

This means the knowledge of the Qur'an and Ahadīth will decrease and ignorance about the religion will increase.

The Prophet, peace be upon him, also said:

"Indeed, knowledge will not be removed by taking it away from the people. Rather, it will be removed by the taking away of scholars ('Ulama)."

Similarly, another reason is to protect the faith and Iman of our youth. The course will be a means of protecting them from unhealthy environments and the day-to-day trials and tribulations the Ummah faces.

It is therefore a means of protecting the knowledge of Islam and protecting the Iman of your child.

Authentic Knowledge

Being able to access authentic knowledge is of utmost importance in a time of trials and tribulations. Especially in an era of internet and social media. Here, in the 'Ālim course, the child will gain access to pure, authentic knowledge. The pure Dīn and the pure teachings of Islam will be preserved.

Spreading the Dīn

Spreading the religion further and being a means of guidance for others is only possible after undertaking the 'Ālim course. A scholar can give lectures, write literature, and teach students. He will also be of great benefit to his own family and children.

'Ālim Class in England

Considering the secular (non-religious) system in England, the best time to study in 'Ālim Class is after high school at the age of 16 and 17. The child is young and has enough time to undertake the 'Alim course.

Completing the 'Ālim course earlier, if feasible, is also okay; however, due to a lack of understanding (at that age) and the fact that an opportunity like that is rare to find, it will be very difficult.

Many Other Benefits

There are countless other benefits:

- **The happiness of our Lord will be acquired.**
- **Any verse of the Qur'an and any Hadīth which mentions the virtue of seeking knowledge will be acted upon.**

"Whoever takes the path of knowledge, the path to Jannah will be made easy for him." (Hadīth)

- **There will be Barakah (blessings) in a persons life.**
- **There will be contentment in the heart.**
- **A source of protection from day-to-day trials.**
- **An opportunity to further benefit others. etc.**

The 3 Year Course

For students who are less committed and for those who are unable to proceed beyond the years due to a lack of ability; 3 years will be a sufficient amount of time for them to learn what they are required to in order to cater for their spiritual and Islamic future.

Similar to the traditional course, they will learn Arabic to a satisfactory level, learn the meaning of majority of the Qur'an, learn basic necessary Fiqh, and complete majority of a comprehensive book of Ahadīth and more. However, they would have learnt the basic minimum, not graduating as an 'Alim.
